

FEDERATION OF MALAYSIAN MANUFACTURERS

# SmartMES

## Bringing IOT To The SME

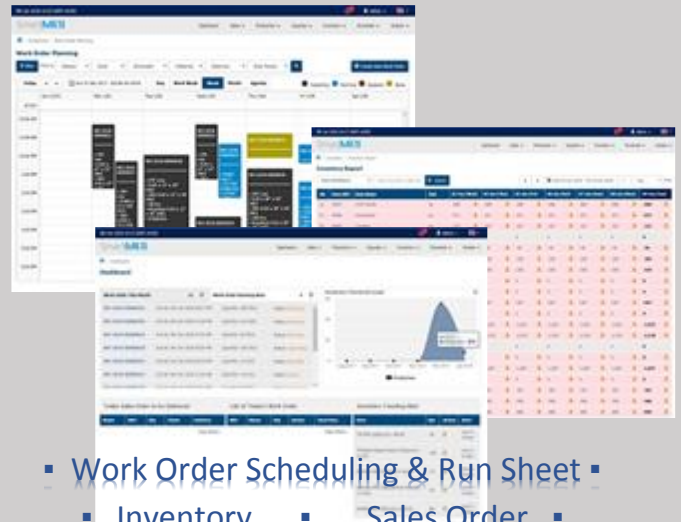

Launch Your Manufacturing Operations into Industry 4.0  
for only RM150 per month per user

▪ Complimentary Tea Talk ▪ 30<sup>th</sup> January 2018 ▪

### How SMEs can benefit from an Advance Manufacturing Planning System (AMPS)?

#### Why Advance Manufacturing Planning (AMP)?

- On-demand production planning & scheduling system
- Get all your information anywhere on the go via your tablet
- Give your sales team the Ability-to-Promise
- Very affordable and targeted for Small & Medium Enterprise (SME)
- Minimal IT hardware and staff needed on site
- Dedicated pre-configured instance on the hosted server for your exclusive use
- Your own computer name and IP address
- Immediate deployment
- Private Cloud Security
- Assisted Support to connect to the hosted server from your Network, including sharing known port and firewall configurations
- Hassle free updates to the latest version

- Work Order Scheduling & Run Sheet ▪
- Inventory ▪ Sales Order ▪
- Reporting & Dashboard ▪

#### Who should attend?

- Chief Executive Officer • Director • Production Manager
- Factory Manager • Production Planner • Operation Manager
